International Journal of Fracture

CONTENTS OF VOLUME 44 (1990)

Vol. 44, No. 1, 1 July 1990

G. SCHOECK	Thermally activated crack-propagation in brittle materials	1
C.R. JOE and B.H. KIM	A method to determine the *R*-curve of flexible materials using a monotonic loading of a single trouser tear specimen	15
W.O. SOBOYEJO, R.C. REED and J.F. KNOTT	On the calibration of the direct current potential difference method for the determination of semi-elliptical crack lengths	27
A. CHUDNOVSKY and SHAOFU WU	Effect of crack–microcracks interaction on energy release rates	43
A. CARPINTERI	A catastrophe theory approach to fracture mechanics	57
M.G. ALEXANDER and G.E. BLIGHT	Behaviour of fracture zones in notched concrete beams	71

Vol. 44, No. 2, 15 July 1990

D.J. NEVILLE	Application of a new statistical function for fracture toughness to failures at microcracks in brittle materials	79
K.S. RAVICHANDRAN	A theoretical model for roughness-induced crack closure	97
Z.P. BAŽANT and M.T. KAZEMI	Determination of fracture energy, process zone length and brittleness number from size effect, with application to rock and concrete	111
T.J. LARDNER, J.E. RITTER, M.L. SHIAO and M.R. LIN	Behavior of indentation cracks near free surfaces and interfaces	133
PEIZHONG ZHANG, C.P. BURGER and I. MISKIOGLU	A photoelastic determination of stress-intensity factors under thermal stresses	145

Vol. 44, No. 3, 1 August 1990

A. LEVAN and J. ROYER — Theoretical basis of regularized integral equations for elastostatic crack problems 155

H. AGLAN, A. CHUDNOVSKY, A. MOET, T. FLEISCHMAN and D. STALNAKER — Crack layer analysis of fatigue crack propagation in rubber compounds 167

R.N. IBRAHIM and H.L. STARK — Establishing K_{1c} from eccentrically fatigue cracked small circumferentially grooved cylindrical specimens 179

Y. SUMI — Computational crack path prediction for brittle fracture in welding residual stress fields 189

A. BHATTACHARYA — Rigid body rotation at the tip of a slant crack in an infinite plate 209

A.C. HANSEN and J. BAKER-JARVIS — A rate dependent kinetic theory of fracture for polymers 221

Vol. 44, No. 4, 15 August 1990

M. ORTIZ and A. E. GIANNAKOPOULOS — Crack propagation in monolithic ceramics under mixed mode loading 233

P. F. THOMASON — An assessment of the validity of *J*-controlled crack growth, and the stability of cracks in incremental-plastic/elastic solids 259

S. ÖSTLUND — On numerical modeling and fracture criteria of dynamic elastic-viscoplastic crack growth 283

J. C. SUNG and J. D. ACHENBACH — Heating at a propagating crack tip in a viscoplastic material 301

AUTHOR INDEX, VOL. 44 (1990)

International Journal of Fracture

CONTENTS OF VOLUME 44 (1990)

Vol. 44, No. 1, 1 July 1990

	Meetings calendar	R2
N.P. ANDRIANOPOULOS and B.C. BOULOUGOURIS	A generalization of the T-criterion of failure in case of isotropically hardening materials	R3
LI ZHONGHUA	A method for calculating elastic deformations of crack body and its application prospects	R7

Vol. 44, No. 2, 15 July 1990

	Meetings calendar	R16
R. ARONE	A probabilistic description of fatigue crack growth under random loads	R17
K.S. RAVICHANDRAN	Further results on "A theoretical model for roughness-induced crack closure"; effect of yield strength and grain size	R23
D.J. UNGER	A transition model of crack tip plasticity	R27

Vol. 44, No. 3, 1 August 1990

	Meetings calendar	R34
M.Z. SHAH KHAN and I.A. BURCH	Effect of superimposed high frequency flutter on the fatigue life of a submarine hull steel	R35
A.M. ABDEL MAGEED and R. K. PANDEY	Fatigue crack closure in kinked cracks and path of crack propagation	R39
HAO TIAN-HU	A theory of the deformation of a spherical void in an infinite space full of incompressible materials and the constitutive relation of void-damaged materials	R43

Vol. 44, No. 4, 15 August 1990

	Meetings calendar	R50
SUN JUN	Strength for decohesion of spheroidal carbide particle-matrix interface	R51
M. KUNA, H. RAJIYAH and S. N. ATLURI	A new approach to determine weight functions from Bueckner's fundamental field by the superposition technique	R57

AUTHOR INDEX, VOL. 44 (1990)
